### EDUCATION

**Towson University** | Towson, MD

*Expected December 2018*

Bachelor of Science: Computer Science | GPA: 3.37 | Major GPA: 3.7

Dean's List: Spring 2018, Fall 2017, Spring 2015

**Course Work:** Database Systems, Data Structures and Algorithms, Mobile Application Development, Web Based Programming, Artificial Intelligence, Data Communication and Networking, and Software Engineering

### EXPERIENCE

#### **Prometric**

*May 2018 - Present*

*Software Developer Intern*

- Work with a Microsoft tech stack (C#, ASP.NET, IIS, TFS) to maintain legacy applications that are deployed worldwide
- Develop in-house software using web technologies such as React and Node.js
- Regularly interact with senior management and developers to receive feedback and gather requirements

### SELECTED PROJECTS

#### **MDYG DelegateWatch**

*Fall 2017 - Spring 2018*

*Java Developer*

- Built GUI Java application with JavaFX interfaced with a MySQL database that allows program administrators to edit, add, search and maintain student data
- Worked with database architect and design team to build application and database from the ground up
- Maintained and updated application based on proactive communications with program administrators

#### **WeatherScan**

*Fall 2017*

*Android Developer*

- Developed weather application built natively for android devices in Android Studio
- Utilized threading, recycler view, fragments, databases, intents, location services, and a REST API.
- Constructed unit tests with Mockito and functional tests with Espresso

#### **Bitcard**

*Fall 2017*

*Android Developer/Part-time Scrum Master*

- Developed simple bitcoin wallet built natively for android devices using the BitcoinJ library
- Participated in Agile development environment as a Part-time Scrum Master
- Worked with team to design application, create advertising material, and build user documentation

### LEADERSHIP AND INVOLVEMENT

**YMCA Youth and Government ("Y&G")** | Annapolis, MD

*February 2014- Present*

*Program Mentor*

- Manage student data and develop/maintain data management software
- Mentor students on public speaking and debating skills as well as governmental processes and policies
- Recruit students and work on program outreach

### SKILLS

**Proficient in** Java, Javascript, Node.js, Android. **Experienced in** C#, Agile, Git, TFS, MySQL, React.  
**Have worked with** Mockito, Espresso, MongoDB, SQLite, Junit, ASP.net, IIS, Electron.
